Renowned as America's pre-eminent black-and-white landscape photographer, Ansel Adams began to photograph in color soon after Kodachrome film was invented in the mid 1930s. He made nearly 3,500 color photographs, a small fraction of which were published for the first time in the 1993 edition of ANSEL ADAMS IN COLOR. In this newly revised and expanded edition, 20 unpublished photographs have been added.

Ansel Adams is best known for his iconic black and white photography, but what he shot in color is just as stunning. In particular, the work he did in Yellowstone National Park is amazing. I have a litho of one of these photos ("Pool Detail", pg 70), and this book was helpful in finding other work I want to display.
