Media Ethics: Cases and Moral Reasoning, Ninth Edition challenges students to think analytically about ethical situations in mass communication by using original case studies and commentaries about real-life media experiences. This market-leading text facilitates and enhances students' ethical awareness by providing a comprehensive introduction to the theoretical principles of ethical philosophies. Media Ethics introduces the Potter Box (which uses four dimensions of moral analysis: definitions, values, principles and loyalties) to provide a framework for exploring the important steps in moral reasoning and analyzing the cases that follow. Focusing on a wide spectrum of ethical issues facing media practitioners, the cases in this new Ninth Edition include the most recent issues in journalism, broadcasting, advertising, public relations and entertainment.

This volume examines the changing pattern of trade in manufactured goods by the use of econometric techniques. The method of investigation employed is cross-section analysis of data for thirty-eight developed and developing countries, for each of which manufactured goods accounted for at least 18 percent of total exports and surpassed \$dollar:300 million in 1979. The results may further be interpreted in terms of the changes that occur in the pattern of specialization in the process of economic development.

Written in the 1960s, TRUTH AND METHOD is Gadamer's magnum opus. Looking behind the self-consciousness of science, he discusses the tense relationship between truth and methodology. In examining the different experiences of truth, he aims to "present the hermeneutic phenomenon in its fullest extent.

First English edition with commentary on one of Euripides' finest texts for 125 years, comprising two volumes sold together as a set (Volume 1: Introduction, Text and Translation; Volume 2: Commentary and Indexes).

Collects youth basketball drills and variations intended to develop essential game skills in every aspect of the game, with advice on when to use the drills and how to progress through them.

This unique textbook explores practice-based research (PBR), using numerous practice examples to actively encourage and engage students and practitioners to embrace research as a meaningful support for their practice. Whilst evidence-based practice gives practitioners access to information about "universal" best practices, it does not prioritize practitioner-generated knowledge or promote new research-based interventions relevant to their own practice circumstances as PBR does. This book discusses the evolution of PBR as a distinct social work research approach, describes its principles and methods and presents a range of exemplars illustrating the application of PBR within different practice methods in different practice settings. The chapters cover: Identifying the research question in a PBR model Designing a study and identifying a methodology Sampling Literature reviews Gathering data Ethics Analyzing data and interpreting results Putting research into practice Viewing the practitioner as central to the research process, and research as a necessary component of practice, this invaluable book emphasizes the seamless integration of practice and research. It is about research in social work practice rather than research on social work practice. Each chapter includes an overview, an introduction, and a key concepts summary. Practice-Based Research in Social Work is a very accessible text suitable for social work students, particularly MSW students, and practitioners.

The two independent studies in this volume are: 1. Alan J. Hauser, Yahweh versus Death-The Real Struggle in 1 Kings 17-19. Hauser argues that although Yahweh emerges victorious in the famous match against Baal in ch. 18, it is Yahweh's struggle with death that gives 1 Kings 17-19 its literary shape and dynamic. 2. Russell Gregory, Irony and the Unmasking of Elijah. Gregory detects a fundamental irony in 1 Kings 17-19: Elijah, driven by his ambitions to clear the country of the prophets of Baal and to lead the people back to the worship of the one true god, appears to be a diligent and forceful prophet for Yahweh. And yet, his frenetic activity only veils his arrogance and his subversion of the prophetic task.
