The Practice of Research in Criminology and Criminal Justice, Seventh Edition demonstrates the vital role research plays in criminology and criminal justice by integrating in-depth, real-world case studies with a comprehensive discussion of research methods. By pairing research techniques with practical examples from the field, Ronet D. Bachman and Russell K. Schutt equip students to critically evaluate and confidently conduct research. The Seventh Edition of this best-selling text retains the strengths of previous editions while breaking ground with emergent research methods, enhanced tools for learning in the text and online, and contemporary, fascinating research findings. This edition incorporates new topics like intelligence-led policing, social network analysis (SNA), the evolution of cybercrime, and more. Students engage with the wide realm of research methods available to them, delve deeper into topics relevant to their field of study, and benefit from the wide variety of new exercises to help them practice as they learn.

This book discusses the perceptions of staff and students with regards to the policy and practice of English as the medium of instruction (EMI) in Pakistani universities. Findings from qualitative and quantitative data collected in two public universities are compared to identify perceptions of problems concerning English as a medium of instruction for postgraduate study. The research also examines participants' attitudes towards the use of Pakistani English (PakE), a distinct variety of English different from other dialects such as American English and British English in its various linguistic features, in higher education settings. The findings explore the gap between the policy and practice of EMI, and expose various multi-layered and inevitable issues.
