~~Epoxy System Recommendations for Coatings~~

Bottom paints are available in a variety of formulations. Most bottom paint systems are compatible with epoxy and can be applied directly over a prepared epoxy barrier coat. If you are unsure of compatibility or have curing or adhesion problems with a specific bottom paint, use only a primer recommended for that bottom paint over the barrier coat. Follow the recommendations given for ...

Time-Tested Epoxy. Cutting-Edge Formulation. Baltimore Solid Color Epoxy Systems. Epoxy floors may be common, but ours are uncommonly designed! They're super-strong, custom-styled, and done in as little as a day. When your Baltimore floors have finally become too chipped, cracked, or deteriorated to live with, don't just replace them with something that will degrade in the exact same way ...

Floorsaver Epoxy Floor Paint is a two part epoxy resin supplied as a tin of resin and a tin of curing agent. Once the contents of the two tins have been mixed together, a reaction takes place which causes the product to cure. This means that one 5L tin can't be used for 2 coats. It will cover 30m² with one coat, but if you have for example, 15m², you can't use half the 5L tin for the ...
