In this volume of 15 articles, contributors from a wide range of disciplines present their analyses of Disney movies and Disney music, which are mainstays of popular culture. The power of the Disney brand has heightened the need for academics to question whether Disney ' s films and music function as a tool of the Western elite that shapes the views of those less empowered. Given its global reach, how the Walt Disney Company handles the role of race, gender, and sexuality in social structural inequality merits serious reflection according to a number of the articles in the volume. On the other hand, other authors argue that Disney productions can help individuals cope with difficult situations or embrace progressive thinking. The different approaches to the assessment of Disney films as cultural artifacts also vary according to the theoretical perspectives guiding the interpretation of both overt and latent symbolic meaning in the movies. The authors of the 15 articles encourage readers to engage with the material, showcasing a variety of views about the good, the bad, and the best way forward.

Now there's a crossword collection for every level of solver, from word game newcomers to experienced experts who confidently use a pen, even when completing total brainbusters. From "Street Names," the perfect puzzle for novices, to the mind-melting "Weekend Warrior," these super puzzlers offer plenty of smart entertainment.

In Jason Henderson's The Serpent's Nest, the third and final installment of the action-packed middle grade series Young Captain Nemo, a twelve-year-old descendant of Jules Verne ' s famous antihero must face down giant sea serpents and solve a centuries old mystery, armed only with his wits, his friends, and his Nemotech submarine. Gabriel Nemo has never been your normal, everyday twelve-year-old. As a descendant of the famous Captain Nemo, he ' s determined to use his Nemotech legacy for good. He and his best friends, Peter and Misty, spend their days studying at the elite Nemo Institute and their spare time trying to solve the mystery of what happened to the original Captain Nemo and his crew. An engraved anchor pin from the abandoned Nautilus leads the trio to Cardiff Bay in Wales, where they find signs of mysterious underwater rescues. But before long, their search is interrupted when they cross paths with a new kind of sea serpent. Can Gabriel and his friends solve the mystery of the Serpent's Nest before things turn deadly?

Narrative Prosthesis: Disability and the Dependencies of Discourse develops a narrative theory of the pervasive use of disability as a device of characterization in literature and film. It argues that, while other marginalized identities have suffered cultural exclusion due to a dearth of images reflecting their experience, the marginality of disabled people has occurred in the midst of the perpetual circulation of images of disability in print and visual media. The manuscript's six chapters offer comparative readings of key texts in the history of disability representation, including the tin soldier and lame Oedipus, Montaigne's "infinities of forms" and Nietzsche's "higher men," the performance history of Shakespeare's Richard III, Melville's Captain Ahab, the small town grotesques of Sherwood Anderson's Winesburg, Ohio and Katherine Dunn's self-induced freaks in Geek Love.
