~~1987 Kawasaki GPZ 1100 specifications and pictures~~

The Kawasaki GPZ1100 is a motorcycle that was manufactured by Kawasaki from 1981 to 1985. All four models featured fuel injection and 1,089 cc engines. All were short lived and were an attempt to

Access Free Kawasaki Gpz 1100 1985 1987 Service

fill a market segment that was rapidly changing.

~~Kawasaki GPZ1100 — Wikipedia~~
The Kawasaki GPz1100 B1 and B2 are motorcycles that were manufactured by Kawasaki in 1981 and 1982 respectively. Both models featured a four-cylinder, two-valve air-cooled engine design with a capacity of 1,089 cc. This engine was an evolution of the powerplant used in the previous Kz1000 series, itself descended from the Z1. In 1983 the GPz1100 was completely revamped in both cosmetic styling, suspension and updated engine. The model number changed to ZX1100A1.

Wikipedia

1985 ZX1100-A3 In 1985 the last GPz1100 was released, competition from sales of the GPz900R released in 1984 had surpassed the GPz1100, so the 1100 was discontinued. All specifications from previous models were retained. This was also the final year for the GPz750 Turbo, which used much of the technology from this series of motorcycles.
