Econometrics and Mathematical Economics
| Tilburg University

Mathematical Economics is one of the specializations within econometrics. The expression mathematical economics dates from the time when economics was less mathematical and formal. Nowadays one would rather use the term economic theory than mathematical economics, as the economic theory itself has become more and more mathematical.

Mathematical Economics | Econometrics
Between the world wars, advances in mathematical statistics and a cadre of mathematically trained economists led to econometrics, which was the name proposed for the discipline of advancing economics by using mathematics and statistics. Within economics, "econometrics"
