Operations Research

Problems And Solutions

In operations research, a team of experts from the different fields first define the problem then represent that problem in the form of a set of mathematical equations. After that, the computer

Download File PDF

Operations Research

Problems And Solutions

analysis of these mathematical equations is done to find a solution for the problems, and then these solutions are applied to solve managerial and administrative problems.

Problems And Solutions

From this table, the improved basic feasible solution is read as: $x_1 = 2$, $x_2 = 0$, $s_1 = 2$, $s_2 = 0$. The improved value of $Z = 6$. Thus the optimal solution is obtained as $x_B = 3$, $x_2 = 1$, $\max z = 11$.
