James J. O'Meara's The Homo and the Negro brings a "queer eye" to the overwhelmingly "homophobic" Far Right. In his title essay, O'Meara argues that the Far Right cannot effectively defend Western civilization unless it checks its premises about homosexuality and non-sexual forms of male bonding, which are undermined not just by liberals and feminists, but also by Judeo-Christian "family values" advocates. O'Meara also uses his theory to explain the stigmatization of Western high culture as "gay" and the worship of uncultured oafs as masculine ideals. Although O'Meara grants that the "gay rights" movement is largely subversive, he argues that homosexuals have traditionally played prominent roles in creating and conserving Western civilization. The Homo and the Negro collects 14 pieces on such topics as conservatism, homosexuality, race, fashion, Occupy Wall Street, Mad Men, The Gilmour Girls, The Untouchables, The Big Chill, They Live, popular music (Heavy Metal, Black Metal, New Age, Scott Walker), and such figures as Noel Coward, Oscar Wilde, and Humphrey Bogart. Shaped by an eccentric, post-WWII American upbringing, O'Meara draws upon "masculinist" writers like Hans Bluher, Alisdair Clarke, and Wulf Grimsson, as well as the Traditionalism of Rene Guenon, Julius Evola, and Alain Danielou.

Greg Johnson's From Plato to Postmodernism collects essays and lectures on philosophical, political, and cultural themes in Plato, Aristotle, Vico, Rousseau, Hegel, Kierkegaard, Nietzsche, Yeats, Husserl, Heidegger, Jünger, Cassirer, Camus, and Kojève. Written in a lucid and lively style and illustrated with examples from ordinary life and popular culture, these essays and lectures are ideal introductions to some of the most profound and influential thinkers of the West.

Since 2001, Trevor Lynch's witty, pugnacious, and profound film essays and reviews have developed a wide following among cinephiles and White Nationalists alike. Lynch deals frankly with the anti-white bias and Jewish agenda of many mainstream films, but he is even more interested in discerning positive racial messages and values, sometimes in the most unlikely places. Son of Trevor Lynch's White Nationalist Guide to the Movies is his second collection of essays and reviews, covering 51 movies and 4 television shows, spanning a 14-year period, from his very first review (Mulholland Drive) to his last to date (The Hobbit: The Battle of Five Armies). Lynch offers penetrating and sometimes surprising philosophical readings of Ridley Scott's Blade Runner, Alejandro Jodorowsky's The Dance of Reality, the Coen brothers' A Serious Man, M. Night Shyamalan's Signs, and Francis Ford Coppola's Youth Without Youth; sympathetic interpretations of Bollywood musicals and Zhang Yimou's wuxia movies; and hilarious pans of Atlas Shrugged: Part I, Prometheus, The Hobbit trilogy, The Monuments Men, Machete, Predators, Secretary, Sucker Punch, and other worthy targets. Return of Trevor Lynch's White Nationalist Guide to the Movies cements its author's status as a leading cultural critic of the North American New Right.

Greg Johnson's In Defense of Prejudice collects 45 essays, speeches, reviews, and opinion pieces on a wide range of topics, including White Nationalism, the Alternative Right, the "Alt Light," the Donald Trump phenomenon, sexual politics, cosmopolitanism, Freemasonry, the Old Right, and the Jewish question. There are essays on such figures as Gotthold Ephraim Lessing, Adolf Hitler, Louis-Ferdinand CEline, Leo Strauss, William Pierce, Harold Covington, Jonathan Bowden, J. Philippe Rushton, Dominique Venner, Gilad Atzmon, Yoav Shamir, Milo Yiannopolous, and of course Donald Trump. Greg Johnson once again demonstrates his mastery at bringing together theory and practice, connecting topical commentary with eternal truths, always with an eye toward the conditions of white survival and flourishing.

Dr. Greg Johnson is the editor of Counter-Currents Publishing and its journal North American New Right (www.counter-currents.com), which draw upon the ideas of the European New Right to promote a new approach to White Nationalist politics in North America. New Right vs. Old Right collects 32 essays in which Dr. Johnson sets out his vision of White Nationalist "metapolitics" and distinguishes it from Fascism and National Socialism (the "Old Right"), as well as conservatism and classical liberalism (the "Phony Right"). Dr. Johnson rejects the Old Right's party politics, totalitarianism, imperialism, and genocide in favor of the metapolitical project of constructing a hegemonic White Nationalist consciousness within a pluralistic society. He argues that White Nationalists are too dependent on the model of hierarchical organizations and need also to work on creating resilient lateral networks. He offers New Rightist answers to a number of disputed questions within the White Nationalist community, including white culpability for our decline, Hitler and National Socialism, the Jewish question, the holocaust, the role of women, Christianity vs. paganism, and the relationships of populism, elitism, and democracy. He sets out some basic principles for creating a growing, resilient, networked movement. Finally, he criticizes distractions and dead-ends like "mainstreaming," conservatism, "premature" populism, and political violence. Engagingly written and constructively critical, Greg Johnson's New Right vs. Old Right is an important contribution to the emerging North American New Right. Praise for New Right vs. Old Right "Greg Johnson's basic point is that we must work to create a metapolitics of explicit white identity-that is, a movement that will develop 'the intellectual and cultural foundations for effective White Nationalist politics in North America, so that we can ultimately create a white homeland or homelands on this continent.' Greg is one of the reasons why I think this is a feasible project. . . . Greg received his Ph.D. in philosophy, and it shows. His forte is the well-developed argument presented in a lucid, easily understood style. Nobody can complain about this book being filled with turgid prose. And I can't find any major disagreements." -Kevin MacDonald, from the Foreword "In New Right vs. Old Right, Greg Johnson lays out his vision for a pro-white movement more focused on ideas, education, and communication than on politics or thuggery. True to this vision, his writing is extremely accessible. Throughout this collection, Johnson breaks down complex philosophical concepts and challenging ideas into tight, efficient sentences and effective explanations. Johnson doesn't drone on trying to sound clever. Like an enthusiastic professor, he truly wants his readers to understand why he believes it is morally right for whites-and all peoples-to determine their own collective destinies." -Jack Donovan, author of The Way of Men "Dr. Greg Johnson's New Right vs. Old Right delineates the differences between two 'Rights, ' without repudiating the common philosophical origins of both in opposing egalitarianism and other passe ideologies that continue to dominate much of the world. The primary value of this collection of essays, however, is that Dr. Johnson asks the perennial question, from our side: "what is truth?" In doing so he lays the foundations for a morality of the New Right. This book is therefore unique in the English-speaking Rightist milieu that was, for much of the post-1945 era, poorly served in comparison to its counterparts in Europe. As such, Dr. Johnson's book will be of relevance to many beyond the North American New Right, of which he is a founding father." -Kerry Bolton, author of Artists of the Right

You Asked for It collects twelve of Greg Johnson's best inter-views from 2011 to 2017. Topics include White Nationalism, the New Right, the Alternative Right, multiculturalism, the Jewish question, ecofascism, populism, elitism, economic policy, the rise of Donald Trump, & such thinkers as Plato, Aristotle, Rousseau, Heidegger, & Savitri Devi.

Extremists: Studies in Metapolitics collects transcripts of nine of Jonathan Bowden's most compelling orations: on Thomas Carlyle, Gabriele D'Annunzio, Charles Maurras, Martin Heidegger, Julius Evola, Savitri Devi, Yukio Mishima, and Maurice Cowling, as well as his speech "Vanguardism: Hope for the Future." These speeches do not just explore the lives and thoughts of creative and exemplary individuals, they also illustrate three cardinal principles that Bowden repeatedly emphasized: First, political change depends upon metapolitical conditions. Second, cultural and political innovations take place on the extremes. Third, metapolitical extremists must think of themselves as vanguardists who lead the public mind to truth, not cater to illusions and folly.

The book contains historical narratives of WWII and the Occupation, first person accounts of Savitri's travels and the people she met and chapters on the philosophical foundations and constructive political program of NS.

It is a perennial embarrassment to the Left that some of the greatest creative minds of the 19th and 20th centuries were men of the Right, and not just conservatives, but men of the far Right, such as fascists and National Socialists--or their precursors and fellow travelers. K. R. Bolton's More Artists of the Right offers political profiles of seven immensely accomplished artists and critics who made significant contributions to Right-wing political thought: Richard Wagner, Aleister Crowley, T. S. Eliot, P. R. Stephensen, A. R. D. Fairburn, Count Potocki of Montalk, and Yukio Mishima.
