Keep your skills sharp with information new to this edition, including updates for SAP BW 7.4 and BW on SAP HANA. Throughout the book, follow along with a comprehensive case study to cement your knowledge.

What is SAP BW/4HANA? More importantly, what can it do for you? Between these pages, you'll explore the answers to these questions, from simplified data models and SAP BW/4HANA Analytics to automated data lifecycle management. You'll find step-by-step instructions for installation and setup, a guide to administrative tasks to keep your SAP BW/4HANA system in tip-top shape, and the low-down on security in your new system. Explore the data warehouse of the future! Highlights: -SAP HANA -SAP BW/4HANA Analytics -Installation and deployment -Data modeling -Reporting and analytics -Data lifecycle management -Administration -Security -Data warehousing solution

SAP BW/4HANA has introduced a new era in data warehousing at SAP. Further steps towards simplification, flexibility, and performance are now possible with SAP HANA as the proven technological basis. SAP BW/4HANA offers modern concepts for data management, operation, and modeling and thus opens the door for fully innovative application scenarios. This book will show you how the SAP HANA database influences the Business Warehouse and how you can optimize your system. As a practical guide, the book is aimed at experienced SAP BW experts as well as decision makers who need a well-grounded overview. The authors address the versions SAP BW/4HANA 1.0 and SAP BW 7.5 in equal measure, highlighting new functions and differences. The book also focuses on the migration options and conversion tools for moving to SAP BW/4HANA. Use this reference book to enter the world of SAP BW with SAP HANA as the database platform! - Migration, sizing, operation, data management with SAP BW/4HANA and SAP BW 7.5 on HANA - The new central source Systems SAP HANA and ODP - New modeling options, mixed scenarios, LSA++, and differences compared to SAP BW 7.5 - The role of BW in operational SAP reporting

This book is brief information on how to use ABAP programming in enhancement of Data sources used for extraction. Standard Data sources provided by SAP can be enhanced for adding extra fields and also custom / generic data sources can be created

which are based on function modules.Enhancing your data source in SAP BW requires couple of steps to be performed and writing ABAP code in the source code of the function module. This book helps in filling the gap by providing sample ABAP program snippets to help the BW developer work quickly rather than spending time on the syntax.

Companies are leveraging the power of big data and are tasked with putting an infrastructure in place that will allow for the analysis of this data. One essential piece of that infrastructure is the data warehouse (DWH). This book offers a comprehensive introduction to SAP Business Warehouse (BW). You'll learn about the primary features and functions of SAP NetWeaver BW, including architecture, data modeling, data extraction, data staging, and reporting. Learn about the different types of InfoProviders available in SAP BW and get a detailed understanding of InfoObjects and InfoCubes. Walk through the ETL process and best practices for administering InfoCubes and DataStore objects. Get tips on how to optimize data access using aggregates and statistics. By using practical examples, tips, and screenshots, the author brings readers new to SAP BW up to speed on the fundamentals and best practices for providing reports to users. • Tips for loading data from a source system to SAP BW with SAP ETL • How to automate ETL tasks using process chains • Using SAP BW Business Content to accelerate the design of your BW objects • Leverage BEx Query Designer and BEx Analyzer

This much anticipated reference makes an excellent addition to your SAP BW Library. Read this book and you_ll discover a comprehensive guide to configuring, executing, and optimizing data retrieval in SAP BW. The author takes you, step-by-step, through all of the essential data collection activities and helps you hit the ground running with master data, transaction data, and SAP Business Content. Expert insights and practical guidance help you to optimize these three factors and build a successful, efficient ETL (extraction, transformation, loading) process. This all-new edition is based on the current SAP BW Release 3.5, but remains a highly valuable resource for those still using previous versions.
