or another iPhone, iPad or iPod touch. SMS/MMS messages aren't encrypted and appear in green text bubbles on your device. To use SMS/MMS on an iPhone, you need a text-messaging plan.

~~About iMessage and SMS/MMS - Apple Support~~

Web SMS refers to using the Internet to send and receive SMS messages. When SMS was first used, it only worked on a subset of mobile networks. But by the late 1990s and early 2000s, the message standard worked on all major networks, though there were still some issues of compatibility that have long been resolved.
