The Barrowfields is a richly textured, deeply transporting novel that traces the fates and ambitions of a father and son across the decades, centered in the small Appalachian town that simultaneously defines them and drives them both away. Just before Henry Aster's birth, his father—outsized literary ambition and pregnant wife in tow—reluctantly returns to the remote North Carolina town in which he was raised and installs his young family in an immense house of iron and glass

DATE: March 7, 2017. Amid family tragedy, a young man flees the peculiar home of his youth only to return years later. Thomas Wolfe may have warned that "you can't go home again," but the Asters of Old Buckram, North Carolina, apparently didn't get the message. The narrator's father, Henry, is a strange fit for this "achromatic town high in the belly of the Appalachian Mountains."

Thomas Wolfe noted that mountain people were death obsessed, and Phillip Lewis's haunting novel *The Barrowfields* adds further evidence to that claim. This story features a son who is desperately trying not to follow his father's path of darkness, while simultaneously indulging some of darkness's more irresistible charms, especially in the forms of music, literature, and alcohol.

The Barrowfields is part coming-of-age story, part homecoming and part exploration of unfulfilled dreams. The setting seems both nostalgically old-fashioned and richly immediate. Lewis writes with warmth, depth and honesty about the regrets of fathers and sons and the inexorable pull of home.

"The Barrowfields is a stunning debut novel rich in character and place, steeped in literature and music, and fraught with family drama. . . . With clear echoes of Poe and Wolfe, The Barrowfields also gives a nod to Richard Russo by reflecting an appreciation for the eccentricities of regional characters."
